SCCOE Education Community Challenged by Contractual Shortfalls, Misappropriation and Retaliation Scandal |SEIU 521 SCCOE Chapter Rallies to Demand Reforms

SEIU 521 SCCOE chapter will hold a rally to demand innovative reforms through a union contract that establishes safety protections, management accountability, and equity for all SCCOE workers.

Who: SEIU 521 Members at Santa Clara County Office of Education (SCCOE)
What: Protest Rally
When: September 18, 2024, at 4:00 p.m.
Where: Santa Clara County Office of Education, 1290 Ridder Park Drive

SEIU 521 members of the Santa Clara County Office of Education will rally on September 18 @ 4:00 PM to demand a fair contract that includes safety, equity accountability of management for SCCOE workers. While SCCOE leadership claims they cannot afford to meet SEIU's demands which would promote recruitment and retention in hard to fill positions in special education and Head start, SCCOE maintained $87+ million above county mandated reserves* and has yet to create equitable work-from-home policies which cost the organization nothing.

"As a parent of an SCCOE special needs child, I witnessed the damage caused by the Superintendent's Office, to reduce special education services," said county resident Barbara Rodriguez. "Insufficient staff means my child isn't getting consistent support he needs at school. SCCOE needs to do better to serve the interests of our special education students, starting from the top, and must invest funding directly to the staff that serve our students. This battle for our kids has gone on too long."

The rally coincides with Superintendent Mary Ann Dewan's annual evaluation and goal setting, with both staff and families calling for structural changes, equity and transparency, and addressing rapidly increasing numbers of management that outpaces classified staff, resulting in very high management to staff ratios. In addition to experiencing unequal treatment when it comes to remote work, SCCOE employees face threats of demotions, reassignments, relocations in alleged retaliation for speaking up. Frequent injuries in special education classrooms resulting in verified Cal-OSHA complaints also further deteriorate morale.

"We can't effectively serve students and districts in a culture of inequity, mismanagement and intimidation, and insufficient staff," said Sarah Gianocaro, SCCOE SEIU 521 Chapter President. "Our contract must prioritize equitable and fair compensation and policies for all our staff, and with over $87 million unspent funds, we

must prioritize investing in students and staff. The superintendent is the sole employer, and she can direct her team to meet our demands at the bargaining table."

What SEIU 521 SCCOE workers are demanding:

- A fair contract, including the end to staggered and short-staffing in classrooms, boosting the substitute worker pool, equitable longevity and interpretation pay and a viable remote work policy, that protects workers' rights and secures the future of education in Santa Clara County.
- Transparency and accountability in the superintendent's evaluation and goal setting reflecting union and community priorities
- An end to retaliatory practices against workers
- Full transparency and accountability in the handling of Head Start
- Invest a portion of the surplus funds in students and staff

Rally Visuals
Union members, parents, and community allies will gather with signs and banners calling for justice for workers and students. Parents of children in special education programs will share their stories of how the structural failings have affected their families. "Join us to protect our children's education and demand justice for SCCOE workers!"

Notes
